If the need arises, what are alternative work arrangements for managers to consider?

Examples of situations when staff may need to telecommute include:

- taking care of self and family members who are ill;
- school closures;
- members of vulnerable populations.

In situations where work needs to temporarily be performed remotely, managers and their staff members should work together to develop a remote work plan to complete their day-to-day work assignments, special assignments, projects, job-related reading or training if staff cannot report to their normal work locations. In developing a remote work plan, managers should review with the staff what is needed to perform work remotely.

Managers are asked to consult with Human Resources to ensure that these arrangements are documented and do not place an undue burden on staff who are required to remain on campus.
